**The formula of prof. De Tivoli**

This clear and unique memory by Fulvia Valente recalls a series of characters and events which are part of the history of the Istituto Superiore di Sanità. A history of passions, research, values and unedited details, not deprived of a critical vision of events. A view of past times showing Fulvia's a still alive enthusiasm. In her long career starting in 1954 and ending in 2004 she was a friend to all. The formula of perfect gases  $PV=K$ , reviewed by prof. De Tivoli at the beginning of the interview, represents the best synthesis of the story told by Fulvia where P stands for presumptuousness and V for value, which multiplied equals to a constant. A formula representing the essence of the exquisite personality of Fulvia Valente.

This movie was presented for the first time at the second conference "Storie e memorie dell'Istituto Superiore di Sanità - Le donne raccontano" ("Histories and memories of the Istituto Superiore di Sanità - The women tell"), March 2, 2009.

Duration 20 minutes.

Parzialmente finanziato con contributi MIUR (legge 6/2000). Progetto "Storie e memorie di un ente di ricerca: i protagonisti silenziosi dell'ISS raccontano".
